Organizer Mp3 Activation Free Download [2022]

Organizer Mp3 is an intuitive program designed to provide an easy method to make audio collections with your preferred tracks, fetch lyrics from the Internet and make slideshows using random pictures. Play songs and create slideshows It's wrapped in an outdated yet user-friendly layout divided into the album name, picture and songs list, along with the advanced information about each song and a simple menu. Create audio compilations and set ID3 tags Right from the beginning you can set the new directory where your albums are going to be. The next step is to give the project a title, profile name, compilation label, year, producer and optional comments. Organizer Mp3 lets you change the cover with another picture (BMP, JPG, JPEG) from the computer. To add the songs, just browse their location, select the ones you want and listen to them by using the "Play" button. Enter the correct details about each song In the playlist, all the albums are displayed with the total number of tracks and the play time. For each track, it's possible to enter advanced details like title, artist, year, genre (hip-hop, blues, jazz, club), as well as attach lyrics and images. Add the lyrics manually or search for them on the web You have the option to load the lyrics for each song from the computer or search for them online using the title and artist as criteria. From the "Tools" menu, you can save and convert the lyrics to RTF documents, capitalize the first letters of songs and copy the records information to the tags. View your photos in a simple slideshow The slideshow feature lets you enter multiple pictures at the same time, move them up and down to arrange them in the desired order and view them individually. Sadly, there are no transition effects, background sounds nor the option to save the slideshow to the drive. Decent MP3 album creator Taking everything into account, Organizer Mp3 is a useful piece of software that comes in handy when you want to create audio compilations containing your favorite songs. It also features ID3 tags, slideshow viewer and automatic lyrics fetcher.
