What's New In Adobe Photoshop 2022 ()?

2016 Year in Review | Part 1 With 2016 coming to a close, I thought I'd compile a look back at the highlights of 2016 for photography. Starting out with one of my favorite weddings of the year, by the talented duo at Rafa Photography. I'll also look ahead to the new year with some of my other favorite photos, including a couple of

brand new galleries of yours truly in action (more on those to come!). In the meantime, cheers to a great 2017!

Cheers to you and your family, as you celebrate life together with classic "50s cool". Shooting with a smartphone can be tricky This shoot reminds me of the day I first started to consider shooting weddings handheld – and that day was last year's. Since then, I've been practicing and improving, and now I'm

loving it. Cheers to client for getting me to where I am today – and bringing this to my attention! New year – new me I'm excited to share my new personal style. For this work, I've been exploring more editorial
