Appendices include AutoCAD LT, the software available for the Windows and Mac OS operating systems. AutoCAD 2012, AutoCAD 2013 and AutoCAD LT 2013 are available for Windows, macOS, and UNIX. AutoCAD 2013 is also available for Android. AutoCAD LT and AutoCAD 2013 for Mac have also been released. History AutoCAD 2000 AutoCAD was first released as "AutoCAD R12" in the May 2000 issue of CAD & DFM magazine. The first version was AutoCAD 2000, released in the same issue. AutoCAD 2000 includes the most recent release at the time, R12. AutoCAD 2000 is a program designed for two-dimensional drawing of 2D drawings, such as electrical schematics, floor plans,

map layouts, contour lines, etc. It is a change from the previous release, AutoCAD 9. AutoCAD 2000 was widely adopted because of its low cost and ease of use. The program was originally only available for Windows, but AutoCAD 2000 Advanced was released for the Mac OS in May 2000. AutoCAD 2000 is no longer supported and therefore no longer available from the AutoCAD website. AutoCAD 2017 continues to support AutoCAD 2000, and it was announced that AutoCAD 2013 would continue to support AutoCAD 2000. AutoCAD LT 2000 AutoCAD LT 2000 was released in January 2001 as a light version of AutoCAD 2000. Although advertised as being compatible with AutoCAD 2000, AutoCAD LT 2000 was not a release of AutoCAD 2000, but a version of the software with much reduced functionality. However, the name "AutoCAD LT" was retained for marketing purposes. AutoCAD LT 2000 was mainly targeted at the CAD and architectural industries, but also saw some use in mechanical drafting. AutoCAD LT 2000 was discontinued in September 2007. AutoCAD 2000 Advanced AutoCAD 2000 Advanced was a suite of plug-in extensions for AutoCAD 2000. The plug-ins included architectural features (e.g. plumbing, fire sprinkler, etc.) and a number of drawing features (geometry, scaling, DXF parsing, file conversion, rendering, etc.). AutoCAD 2000 Advanced was discontinued in March 2007. The final release was v2.13.1 on March 9, 2007 ca3bfb1094
