.FILE PHOTO: A member of the Maine Drug Enforcement Agency Board of Advisors stands in front of Maine Drug Enforcement Agency headquarters in Augusta, Maine, U.S. on Wednesday approved a bill that would allow public possession of small amounts of marijuana. Governor Paul LePage was expected to sign the bill into law. (AP Photo/Robert F. Bukaty) AUGUSTA, Maine (AP) — Maine on Wednesday approved a bill that would allow people to possess up to 2.5 ounces of marijuana and grow up to six plants at home, setting up a potential showdown with the federal government. Legislative leaders say they plan to turn the drug law over to Maine voters in November, once the Legislature gets final approval of the bill. Maine is the first state in the Northeast to legalize small amounts of marijuana for personal use, which will take effect when the bill is signed by Gov. Paul LePage. The state is also the first to authorize home cultivation for medical use. Under the new law, it is illegal to sell or transport marijuana but legal to possess up to 2.5 ounces and grow up to six plants at home. Possession of one or two plants is punishable by a civil fine of \$1,000. A second offense is a misdemeanor with a maximum fine of \$5,000. However, expiring federal laws and lack of coordination among local and state police could lead to confusion among local and state police could lead to confusion among local and state police could lead to confusion among the bill into a state police could lead to confusion among details the state must work out. "To make implementing the law and said there are still outstanding details the state must work out. "To make implementing the law and said there are still outstanding details the state must work out. "To make implementing the law and said there are still outstanding details the state must work out. "To make implementing the law and said there are still outstanding details the state must work out. "To make implementing the law and lake of the process, we are asking that you consider that the state not go

Ebox A condary School teacher, Planta for Cinical trials, it is approved by the US FDA for prophylaxis of respiratory should double-blind, placebo-controlled trial, in which infants receive a one-time dose of palivizumab or placebo before the age of 6 months. Pre-specified post hoc analyses of this trial are currently being conducted to assess the efficacy of palivizumab in specific subgroups of infants. This article reviews the potential effect of pre-specified subgroups analyses on statistical power, the safety of palivizumab in these subgroups analyses for these subgroups. As previous pre-specified analyses may have already influenced the design of a new clinical
