

The game begins after the war, the Kingdom of Dry began to fall into chaos, and the Princess who is engaged with the Prince was kidnapped by the Witch. Follow him in the adventure to save the peace and kingdom that will be torn apart. And this is only the beginning, as there are many to follow. The gameplay consists of chases after trying to run from danger, as well as precise jumps and avoiding obstacles; Each region you reach, you will have to pass through the castle to rescue the Princess, discovering secrets of the land and fighting evil enemies along the way. Each challenge in the game is increasing in difficulty, so you will have to be fully prepared to face the challenge and the Witch's strength, and may turn. Although this is a casual game, The Princess Adventure is quite heavy in terms of graphics and sound. Your movements and jumps must be accurate, and things are more extreme than in any other casual game. To run, jump and jump again, with no time limit or more difficult in the classics, The Princess Adventure. Written and programmed by David Rojas - Camofrog Studios. Enjoy!

„ I was born to be an Angel...“ () POTEMKIN'S System Voice This box contains the voice of the person called POTEMKIN. POTEMKIN was born in the city of Tiro. With a strong belief in herself, POTEMKIN is bold and will use whatever means necessary to achieve her dreams. She is in charge of a group of female Angels and is looking to become a human-like Female Soul Angel called Sainthood. However, the other Angels fear that POTEMKIN will not succeed and will become a demon. At the same time, POTEMKIN seems to have a streak of mysterious darkness that makes others say "She's evil." POTEMKIN's Skill POTEMKIN is a skill with a special combo move. It allows you to launch multiple skill commands at once. You can't cancel the skill move until it finishes. Pocemkin COMBO Pocemkin Pocemkin is a system voice that utilizes a special combo move. By default, you can use a command skill that's selected while you're pressing the RMB button. However, if you also press the specific button to raise the combo gauge (white bar), a different command skill will be added to the combo. Combo Effects When you perform a Pocemkin, the gauge fills up to its maximum value. When the gauge fills up completely, a command skill will be added to the combo. As your combo gauge increases, the skill in the combo becomes more powerful. You can cancel the move by pressing the button to lower the combo gauge. However, the maximum combo gauge increases with your skill level and maximum combo gauge depends on your combo gauge value when Pocemkin is activated. Click on the Pocemkin button at the bottom of the command window to access the skill list. In the skill list, you can toggle the mode of the command skills. When you input a command skill that's from a different skill list, the output will be sent to the currently selected slot. When the command skill is added to the combo, it becomes the one selected in the command window. Skill List Command Skill List Skill Effect Champion

What's new in Jigsaw Puzzle - Expansion Pack 9:

The Planet Crafter is a story-driven improvisational comedy setting and card game where players take on roles of over 20 super-powered humanoid robots, trying to complete missions while bonding the robots as friend, working together to save the world. As individual robot characters, players complete missions, perform actions on the board, and develop powers and abilities to impact the game's story. In the game's card game component, players and their teammates build roles, including robots, teammates, missions, and actions on the game board. These cards are sorted into personas to determine actions and skills, which provide compelling gameplay in a wide variety of different play-modes. The Planet Crafter was designed to be an endlessly replayable tabletop game that integrates card game and improvisational comedy elements. With each game, players build characters, complete their own story, and choose how to develop their team of robots to succeed in their story. The Planet Crafter is still in development and was created by what issue.media inc. Invented by what issue.media inc. Located in Toronto, Ontario, Canada The Planet Crafter is in its third Kickstarter campaign, which was launched on April 6, 2016 and ended on March 31, 2016, with a total of \$14,020 pledged, \$5,945 of which was raised within the first two days. A DVD copy was produced. The campaign was launched with a goal of \$20,000 and was successfully funded after seven days, with a total of over \$30,000 being raised. After the campaign was fully funded, Kickstarter selected Team What Is's best project to be funded a second time. It was successfully funded again on January 11, 2017, raising over \$66,000 and produced over \$26,000 in rewards, including a commemorative collector's edition of the game. A DVD copy was also produced for this set. After the successful production was complete, the Kickstarter backers were notified that the game was an official organization partner for this year's Ontario Animation Promotion Fund (OAPF), allowing for the funds raised to provide grants to eligible animation studios, developers, and crew in Ontario. Release The game was released to the Kickstarter backers on December 10, 2016, with all Kickstarter backers being automatically upgraded. The game was officially released on February 1, 2017, and players can play it at local game stores around the world. Find Your Team

Rising of the Moon's world is a hand-painted, pixel-art world. The world is ruled by coal based magic, and the energy of the coal is used to power arcane technology and magical inventions. The magic comes in three forms: Duro, the life-giving life magic. It allows the user to be able to fight with fire. Too bad it's also very volatile, which increases the risk of fire damage. Scarr, the growth magic. It gives strength, grows things and lets you make sharp objects. Also, it's what powers the earth and people who use it can rise the food they eat and change the terrain. Murak, the energy of restlessness. This leads to a very unfriendly, spell-based combat system. It's based on chaotic, and chaotic elements can be used to mess with the environment and fight in different ways. The people of the world use this power to build cities, and have a very rich history. The world is a mix of fantasy, history and soul. We really wanted to portray this in the game. There's a lot of legwork in this game, especially on the early stages of the development. We spent a lot of time in the medieval era and we really tried to depict the time and place as accurately as possible.
