He addressed the controversy on Twitter at the time, saying he was “embarrassed and disappointed in myself” for his comments. “The jokes were bad and if I offended anyone who’s been a victim of sexual assault or anything along those lines I am deeply sorry. What's new in Fantasy Grounds - Creature Codex (5E):

, Saunière learned a crude secret that he meant to guard with his life, even if it had to be death at some point. _In the days of the free republic, the third National Assembly of the French Directory decreed that all wealthy madmen were to be both cured and relocated to where they belonged, away from the people for good._ With his mother in the nunnery, the orphaned boy had had practically no one to guide him in the ways of medicine, quite the contrary. Saunière had never known any other pernicious ideas but those of the Franciscans. He had never seen any other patients but himself... and his mother. In the forest, he threw his mother onto the dirt, stripped off her liege gown, her useless petticoats, and all restraints. His mother, who had been a free-thinking woman, had worn nothing in five years of her nunnery training, wanting to be a perfect child of God and Saint Francis. Even when the dresses got wet and muddy, she wore only her robe. In the village, he told her nun that they were going further and that she was to get the cart ready to go home. "I called him mother," the nun said in her quivering, terrified voice, as Saunière tried to school his face to make it look like it all wasn't so terrible, "I gave him her name and he took it all—" _"And since then, he has been searching for the false saints, and he was never fit to be a priest."_ In the woods, Saunière offered his mother a choice—either he could always bear seeing her with the dress on, or he could find her the same way he'd found her so many times before—deep in the forest, near the river, at the hunter's hole. In the forest, he ordered her to undress completely, for she was not his mother, only a servant. And under no circumstances was she to ask any questions. In the forest, he pressed her to recognize something he was certain of: the failed religious relic Saunière had been fighting over for nearly forty years had been there all along, close at hand, at Crozat, near the hospice, where he had trained as a surgeon, at the Hotel-Dieu, and at the Hôtel-Dieu and Hotel-Dieu-le-Grand.

The city of Murk is under siege by a cruel barbaric leader. On his night patrol, Corporal Mandrake from the City Watch stumbles upon a treacherous conspiracy that seeks to open the city gates for the usurper. Mandrake and his patrol partner have until dawn to uncover the truth and prevent the conspirators' plan. Explore temple dungeons, rowdy taverns, shady allies, and more. Obtain information from suspects or catch their lies by using your wits. Uncover the truth in a plot full of deception. After an exciting start with the first story, The City Watch will return to a safe story set in a completely different world: a world where the population don't have a body of water for a nearby city, where food is hard to find, where friendship is powerful and magic can be devastatingly dangerous. The new story is set in a medieval world similar to the one in Dust and Salt, and will help you advance your abilities and unlock new story elements using the same world systems. But the new world is also very different, and it will bring new challenges for you. What is it? The Battle for Murk is a short story game featuring two full-length stories: an exciting short story set in the world of Dust and Salt and a stand-alone story set in a medieval world. Who is it for? The Battle for Murk is a short story game, but its world is rich enough for you to return to it during the main story of Dust and Salt. The events of this game will also help you progress in this world, making this game perfect for fans of Sorcery! and Fighting Fantasy and Choose Your Own Adventure. Why is it so unique? In The Battle for Murk, as soon as you enter a location, you will be in control of all NPCs (non-player characters). Use your actions to interact with people and choose the fate of an important location. How people respond to you will decide whether you gain information, trust or anger them. How does it play? When you enter a location you are presented with two paths: the correct path (blue lines) and the wrong path (red lines). Each choice you make will be reflected in a different path. To make the story yours, you can travel between the two paths, but some choices will be irreversible. They will be reflected in the ending. What can I expect? As you make choices throughout the game, you will be able to
