Patch 2.8, bringing with it the long-awaited Maguuma Jungle expansion, is now live for all players. Here is the patch notes: General This patch updates several game features such as the Atlas, PvP, Factions, Housing, Characters, and much more. Exploration The new Maguuma Jungle Map features ten new areas that are mostly comprised of new backdrops that players can interact with. The new area also has a new system for reviving players when they are low on health or at low level. Act I: The Atlas Added new quests that connect the Atlas to several of the different character systems. Additionally, four new Unchained dungeons are added: Bastion's Chamber Courser's Stronghold Sylvanian Watershed Mountain's Splendor Guild Wars 2 Arena The Arena changes the balance of the game by increasing the strength of the Keeper's Aura and the number of available healing and magicka potions, which in turn improves the overall balance of the game. This change is meant to help game-play in Guild Wars 2 Arena by providing a better challenge for the players that want a more challenging game. Guild Wars 2 Factions Guild Wars 2 Factions is a new way to make PvP organized; players are given the ability to make clans and factions that they can join and play with. The new system is designed for parties, guilds, clans, and more. PvP Added new personal attack and main-hand weapon animations. PvP Changes Revamped all damage and healing animations for PvP in the Atlas Classes The following changes have been made to the balance of the classes in PvP: Alts (except Elementalist) and necs can no longer use any global buff, debuff, aoe, or status effects AoE damage and healing have been raised.
