◆◆◆About The Game◆◆◆ The Lands Between is a world that lies between the Shards of Amdoria, encompassing two continents, countless islands, and a large number of vast lands. Among them is a huge continent known as the “Great Forest of Grand Abaddon.” It’s an area riddled with dangers such as ferocious monsters, the corrupting influence of darkness, and other various natural calamities. A place where the desperation of life reigns supreme. However, a grand future still lies ahead for this desolate continent. A time

when every living creature will help an unknown hero towards the most important journey they've ever embarked on—The Great Road. In order to prevent their people's enemies from using an ancient artifact of death known as the Abaddon, the people of the Great Forest have assembled an army and hired a swordsman called Tarnished whose power is far superior to the strength of the enemy. By aiding Tarnished as he travels the Great Road, you will be able to influence the history of an unknown world. Fight monsters, uncover mysteries of the Great Forest of Grand Abaddon, and find friends along the way as you travel together with Tarnished and the people of this world!

[About the Game Characters] ◆◆◆The Starting Characters◆◆◆ You: Estelle, a gloomy young man who lost his mother at young age and was once a certain swordsman under the name of Tarnished. He came to a small village called

“Palladam” near the forest, hoping to earn money for medicine so that he can make amends to his mother. Tarnished: The most fearsome swordsman in the Great Forest of Grand Abaddon. He was once a swordsman called “Abaddon”, a name he used because “the darkness that crept in during the night was something to be feared.” He has since become a nomad in the Great Forest. He can display a dark variety of swordsmanship, but the swords he wields are surprisingly strong. Reno: The Kingdom of the Elder Ring is a country that lies in the western side of the Great Forest of Grand Abaddon. It was once a peaceful country that harbored love for the Elden Ring. Now, however, the wickedness of the kingdom itself is causing unrest in the hearts of

****COMMENTS FROM PLAYERS :**** I still have trouble accepting the fact that you actually took the time to make this game. You are clearly someone who has a lot of talent and dreams. Thank you for creating this game. Am I the only person who thinks that there is something really weird in how your game is presented on Steam? All 3 links on your steam page are to your college website, which even has a domain name that starts with

www.kent.ac.uk, which is your university's domain name. Then again, perhaps I'm being paranoid. The game looks really nice. Glad to see a new RPG! Hello sir, I don't know how I'm supposed to give you feedback because I'm only looking at the game through Steam now, but I see you have posted three different endings to this game, which is interesting and maybe a good indicator of your overall vision for it. Because I was also disappointed by the end of the game, it would be appreciated if you would add a fourth ending with the most obvious outcome. Another thing I would suggest is the inclusion of a final boss fight and a multiplayer mode. Good luck with your game! I'm curious to see more of it. I've played a few RPGs recently and haven't been this excited since, well, ever. How do you guys do this? This game is beautiful, detailed, and a joy to play. I'm so glad you're releasing it. That is one of the most amazing games I have ever seen. I can't believe how much work went into this game. I really hope you succeed. This is a

great game! It deserves to be on Steam. It's a shame it has only recently been released, because it seems like you've already been working on it for years, and it's really well-made. I hope you and everyone involved in the project succeeds, and I'm looking forward to playing the game. I can't believe I got to play this now! I am literally shaking with excitement. The game looks amazing. I'm so glad it's
