Functional Ear Trainer Basic Crack License Key Full

Functional Ear Trainer Basic Crack + Free

The program provides a simulated instrument that uses the ear training device. An "On" button is provided on the device to turn on the instrument. An "Off" button is provided to turn off the instrument. Functional Ear Trainer can function in one of two modes: Game Mode and Teaching Mode. The function and placement of buttons is

identical in both modes. In Game Mode, the instrument plays a melody that can be played by clicking on the keys. The melody is set to play a fixed random scale in a particular key. The user is prompted to guess the note. If the user guesses right, the note is automatically changed to another random note. If the user guesses wrong, the melody plays again. This can be done as many times as the user wants. In the Teaching Mode, the user is prompted to select a key in which the instrument plays a cadence. The user is then prompted to guess the note as the cadence plays. As the cadence plays, the note is changed to a random note if the user guesses wrong. If the user guesses right, the note is changed to another random note. Functional Ear Trainer is an ear training program to learn to recognize notes in the context of a key using a method that really works! Traditional ear training progams typically let you guess scales, chords, and intervals "as is". Functional Ear Trainer is different, the user can select a

key and the computer will play a cadence to clearly define the particular key, followed by a random note. The user must then guess the note within this harmonic context. Cracked Functional Ear Trainer Basic With Keygen Description: The program provides a simulated instrument that uses the ear training device. An "On" button is provided on the device to turn on the instrument. An "Off" button is provided to turn off the instrument. Functional Ear Trainer can function in one of two modes: Game Mode and Teaching Mode. The function and placement of buttons is identical in both modes. In Game Mode, the instrument plays a melody that can be played by clicking on the keys. The melody is set to play a fixed random scale in a particular key. The user is prompted to guess the note. If the user guesses right, the note is automatically changed to another random note. If the user guesses wrong, the melody plays again. This can be done as many times as the user wants. In the Teaching Mode, the user is prompted to

select a key

Functional Ear Trainer Basic Crack+ With Full Keygen (April-2022)

Functional Ear Trainer Basic is an ear training program to learn to recognize notes in the context of a key using a method that really works! Traditional ear training progams typically let you guess scales, chords, and intervals "as is". Functional Ear Trainer is different, the user can select a key and the computer will play a cadence to clearly define the particular key, followed by a random note. The user must then guess the note within this harmonic context. The computer plays an ascending major scale, a descending minor scale, and a random note (e.g. C, G#, E, D#, G, etc). When the user hears a note within the key, the note is played immediately after the cadence, but it is played

outside the scale (i.e. out of tune). When the user hears a note out of tune, the user presses the'start' key to begin the next trial. Functional Ear Trainer Basic will provide a more realistic experience than traditional ear training programs. A key must be selected from a list of existing keys. The key selected is indicated by a message on the screen. The number of scale tones (major and minor) of the key are indicated. The keys are chosen by the user. The scale is randomly chosen by the computer. Functional Ear Trainer Basic is a program that helps people to Learn to recognize notes in the context of a key. Learn to recognize notes in the context of a key. The user can select a key from a list of existing keys. The key selected is indicated by a message on the screen. The number of scale tones (major and minor) of the key are indicated. The keys are chosen by the user. The scale is randomly chosen by the computer. Functional Ear Trainer Basic is a program that helps people to Learn to recognize notes in the context of a key. Learn to

recognize notes in the context of a key. The user can select a key from a list of existing keys. The key selected is indicated by a message on the screen. The number of scale tones (major and minor) of the key are indicated. The keys are chosen by the user. The scale is randomly chosen by the computer. Functional Ear Trainer Basic is a program that helps people to Learn to recognize notes in the context of a key. Learn to recognize notes in the context of a key. 2edc1e01e8

Functional Ear Trainer Basic PC/Windows

Functional Ear Trainer is an ear training program to learn to recognize notes in the context of a key using a method that really works! Traditional ear training progams typically let you guess scales, chords, and intervals "as is". Functional Ear Trainer is different, the user can select a key and the computer will play a cadence to clearly define the particular key, followed by a random note. The user must then guess the note within this harmonic context. Easy to learn and hard to master. Basic: -Exercises the muscles of the ear used to identify simple keys -Simple enough for the average ear to pick up Professional: -Views full octave from any key -Play "back-to-back" -Includes Auralization - A note played while listening to the correct answer. -Transitions to 3 different modes: a. Recognize Notes - Determined by the random note that is played. b. Recognize Scale - Determined by the key that you are

playing c. Random Key - Random key from the collection. Functional Ear Trainer Basic is an ear training program to learn to recognize notes in the context of a key using a method that really works!
